

Welcome to Williamson County 4-H Youth Development

Focus: Teaching Youth Life Skills
through hands-on activities
students enjoy

The Mission of Williamson County 4-H is to teach youth in 4th-12th grade life skills through hands-on learning experiences in areas students enjoy. We get our name from our focus on the whole student—

Head, Heart, Hands, and Health.

UT Extension, Williamson County

Office: 615-790-5721

Address: 4215 Long Lane, Suite 200,
Franklin, TN 37064

Email our full-time 4-H staff:

Mary Beth Antunes, 4-H Agent, mlee60@utk.edu

Doug Berny, 4-H Agent, dberny@utk.edu

4-H Pledge

I pledge my head to clearer thinking;
My heart to greater loyalty;
My hands to larger service and;
My health to better living,
For my club, my community, my
country, and my world.

4-H is for All Youth

Did you know? 4-H is the oldest and largest youth organization in the world.

Since 4-H began more than 100 years ago, it has grown into the nation's largest youth development organization. The 4-H idea is simple: help young people and their families gain the skills needed to be proactive forces in their communities.

Farming & Agriculture Beginning to So Much More!

When 4-H began in the Late 1800's: researchers discovered adults in the farming community did not readily accept new agricultural developments on university campuses but found that young people were open to new thinking and would experiment with new ideas and share their experiences with adults. In this way, rural youth programs introduced new agriculture technology to communities. The practical and “hands-on” learning enabled community clubs to help solve agricultural challenges and was a first step toward youth learning more about the industries in their community.

4-H Today – Today, 4-H'ers are tackling the nation's top issues, from global food security, climate change and sustainable energy to childhood obesity and food safety. 4-H out-of-school programming, in-school enrichment programs, clubs, and camps also offer a wide variety of STEM opportunities – from agricultural and animal sciences to rocketry, robotics, environmental protection and computer science – to improve the nation's ability to compete in key scientific fields and take on the leading challenges of the 21st century.

County 4-H Scholarship

\$21,200 awarded in 2020

\$170,000+ awarded since 1997 by Williamson Co 4-H

Volunteers Behind Everything

We love for parents to be involved by volunteering alongside your student or with another club you have interest in. While volunteering as a parent is not a requirement, we know from experience it provides a positive atmosphere for everyone involved and hope you will find a way to join the fun!

Communications Focus

We place an emphasis on teaching youth communication skills in a variety of platforms because we know communicating with others, especially public speaking is important but something you only **learn by doing**.
